1. Print this page and the next at ACTUAL SIZE (100% scale).

Compare the scale markers on this page and the next with a ruler.

If the scale isn't correct, your Xero Shoes will not fit correctly, so adjust accordingly.

2. Fold the next page on the indicated line, and tape it to the bottom of this page, where indicated.

3. Position your bare foot on this page inside the outline.

If your foot extends past the border, try a larger size.

If there is more than 1/4" (6mm) of space past your heel and the front of your toes, try a smaller size.
